I love to build tricky and complex UI's for your iOS apps. Give me visual challenges and I'll be a happy camper. I build apps that are easy to use. I've got 3+ years of experience as an iOS developer. Experienced mobile app developer with a proven track record of delivering well-received and commercially viable apps.

I program iPhone/iPad (iOS) apps with Swift. Over the years I have developed and launched many iOS apps to Apple App Store. Many of them were my own open source apps/games and many were projects for clients all over the world.

3+ years of programming and design experience. I have a keen eye on animation and that 'extra spark' that makes enjoyable apps stand out.

Experiences

CryptoExpress (Bangkok, Remote)

iOS app developer

07/2022 – Present

Building iPhone and iPad apps. Business apps, Finance Crypto Currency apps, etc. Please review Projects section.

Senior iOS Developer

HealthWiz360 is an on-demand iOS app for Health & Fitness monitoring. HWiz360 app can control your diet, fitness and many more health related things. In real-time user can know about his/her diet, weight, calories. it is basically R&D based Project.

Enabatal Manasek

Mid iOS Developer

The App is a digital platform to enable muslims around the world to perform Umrah on behalf of their deceased parents, relatives , providing a reliable digital medium to the users and performers.

http://manasek.net/app_features

Shopi Cart

Mid iOS Developer

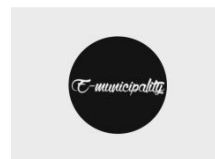

This e-commerce app allows users to search, find, cart, add to favorite, and order products from their couch with reliable delivery partners. I worked Independently on this project.

Food Cart

Mid iOS Developer

This restaurant app allows users to search, find, order and deliver food from their favorite place, set on their couch, with reliable delivery partners. It has features such as Restaurant Side, Driver Side, and Track the time of food from ordering to delivery.

E-Municipality

Mid iOS Developer

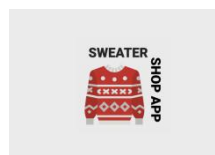

Citizens can report problems, access data, track grievances and get feedback, helping to control corruption, increase openness and trust in government, and empower government. (FYP Project)

Car-Way

Mid iOS Developer

Car Way is an on-demand iOS app for Car repairing & Auto Spare parts e commerce platform. App development was done integrating/ Consuming REST API's and design was developed in UIKit from client requirements and was a really interesting challenge.

SweaterShop SwiftUI

Mid iOS Developer

The very first app in the Swift UI for ecommerce shop, Purely developed in SwiftUI using different cards, cart functionality, animations etc.Learning based application.

Flash-Chat

Junior iOS Developer

Flash Chat is a beautiful and simple app for chatting as well as requesting and communication.This app supports Firebase communication & authentication, Actually it is a boot camp based open source project.

See-Food

Junior iOS Developer

I have developed this app from Angela Boot camp. The idea of this app for developing came due to silicon valley season, it is basically a CoreML Based App for detecting food item, such as hot dog or not hot dog. Just for the learning purpose.
